

## NVC Grant Announcement

Palm Springs, CA – January 6, 2016 - The Neuro Vitality Center (formerly Stroke Recovery Center) announced the rewarding of grants from two of our major volunteer groups in the Valley.

The Desert Classic Charities of Rancho Mirage, CA awarded NVC with a \$10,000 Grant to support the Exercise Therapy equipment for patients living with neurological conditions and a additional \$5,000 donation was awarded from The Champions Volunteer Foundation of Indian Wells, CA to support Speech Therapy programs for patients living with Multiple Sclerosis and Parkinson's Disease.

“We are so grateful for the continuous support from generous foundations like these and the local community as we grow and expand not only our services but our facility this year. We look forward to continuing our mission of ensuring that those with neurological conditions can engage in a vital and fulfilling life. Our new facility and program offerings continue to support our legacy to ensure that,” said Beverly Greer, CEO of the Neuro Vitality Center.

For 36 years the Neuro Vitality Center, formerly the Stroke Recovery Center, has been improving the quality of life for the individuals and families of those living with stroke and neurological conditions through community centered care, support, education and

research. Recently NVC has expanded its programs to include the support of Multiple Sclerosis and Parkinson's patients, filling a much needed void here in the valley.
